- Git & GitHub
- AI tools (Claude Code, ChatGPT)
- Process Improvement
- Planning & Prioritization
- Problem Solving

## LANGUAGES

- Hebrew – Native
- English – Fluent

## PROFILE

Industrial Engineering & Management student (3rd year) with an analytical, process-oriented mindset. Hands-on experience running a business end-to-end and building real systems with SQL, Python and AI tools. Looking for a student role in data, operations or project management.

## WORK EXPERIENCE

**Active Bar – Event Services** 2023 – 2026

Owner

- Managed clients end-to-end, from inquiry and pricing to delivery and payment.
- Tracked costs, bookings and supplier orders to support pricing decisions.
- Handled real-time issues during live events, prioritizing by urgency and impact.
- Managed logistics, inventory and staff for events.

**Captain Credit** 2023 – 2024

Sales Representative

- Generated new leads and managed a high volume of customer relationships.
- Met and exceeded monthly sales targets.

## PROJECTS

**Sparkio – CRM for Event Vendors**
Built a CRM for event vendors from idea to working product, replacing scattered Excel, WhatsApp and notes. Built with Claude Code and Git & GitHub.

**Sliding Doors – Football "What If" Simulator**
What-if match simulator with win probabilities and AI agents, built with Claude Code.

**Relational Database Projects (Coursework)**
Designed schemas and ERDs and wrote SQL queries on SQL Server.

## EDUCATION

**B.Sc. in Industrial Engineering & Management**
Ruppin Academic Center · 3rd year (in progress) 2024 – Present
**GPA:** 91/100 (Departmental Honors – Year 1)

## MILITARY SERVICE

**IDF Reserves – Alexandroni Brigade** Ongoing

Platoon Sergeant, Mortar Platoon

- Planned the platoon's home-leave rotation during reserve rounds.

**IDF – Golani Brigade, Battalion 51** 2018 – 2021

Combat Soldier and Squad Commander

- Led and trained soldiers in operational and routine activities.
